With the coming into force of the Malaysia Competition Act 2010 ('Act') on 1 January 2012, it is vital for businesses to understand the key areas affected by the Act and to be aware of the practical steps towards compliance. To ensure compliance, the Competition Commission was established. The Act governs how businesses should conduct their commercial activities and their interaction with their competitors, suppliers and customers whether in Malaysia or otherwise, by prohibiting anti-competitive behaviour.

AAA Consulting Sdn Bhd and Azmi & Associates are proud to present this one-day seminar specifically aimed at discussing and sharing experience in a practical manner towards compliance with the Competition Act 2010. Get a holistic perspective towards Competition Law, both globally and locally and be prepared on the implications of the Act to your business' day-to-day operations.
